Preface

It gives me great pleasure to present this updated edition of “**Know Your Association**”, released on the momentous occasion of the **40th Annual Conference and Symposium of the Indian Poultry Science Association (IPSACON–2025)**. Over the past five decades, IPSA has evolved into a vibrant platform for scientific exchange, professional collaboration and sectoral development, reflecting the collective dedication of our members across the country.

Since its inception, the Association has remained committed to advancing poultry science through research, education, innovation and dissemination. The present booklet has been meticulously revised to provide an updated and comprehensive overview of the Association—its history, leadership, objectives, achievements, publications, activities, awards and membership structure. It serves as an important reference for both longstanding members and the new generation of scholars, professionals, and industry stakeholders joining the IPSA fraternity.

The theme of this year's conference— “**Flock to the Future: Embracing Technology, Innovation, Entrepreneurship and Sustainability in Poultry Production for Protein Security in Viksit Bharat**”—aptly reflects our forward-looking approach. As India moves toward the national vision of *Viksit Bharat @2047*, the role of poultry science gains renewed significance in ensuring nutritional security, livelihood enhancement and environmentally responsible production. Strengthening professional institutions like IPSA becomes essential in guiding this transformative journey.

I take this opportunity to acknowledge the efforts of the Editorial Committee and all contributors who have worked diligently to prepare this updated edition. Their commitment ensures that members have access to accurate information about the Association's functioning, milestones and future directions.

As we celebrate fifty years of scientific excellence and service to the nation, I urge all members to remain actively engaged in the mission of IPSA and continue contributing to the growth of the Indian poultry sector. I am confident that this booklet will deepen our shared understanding of the Association and inspire greater participation, collaboration and leadership in the years ahead.

I extend my warm greetings to all delegates of IPSACON–2025 and convey my best wishes for fruitful deliberations and continued progress.

Message

It gives me immense pleasure to present this third edition of *Know Your Association*. The Indian Poultry Science Association (IPSA), established in 1965, has since been functioning as the apex professional body in the country, committed to providing essential research and development support across all disciplines of Poultry Science. The Association will complete **60 years** of its existence in 2025 also 39 conference and 40th is going to organize at DPR, Hyderabad. A proud milestone marking sustained growth and dedicated service to the poultry sector. At present, IPSA has a membership strength approx 1900, comprising scientists, technocrats, students, industrialists, poultry breeders, farmers, and entrepreneurs from allied industries including egg and poultry meat processing, compounded feed, equipment manufacturing, immunobiologicals, pharmaceuticals, nutraceuticals, and more.

The Association's Headquarters and 19 executives came in force from Jan, 2025 comprising total 23 officials, total 5 chapters. Secretariat are located at the Central Avian Research Institute (CARI), Izatnagar, Uttar Pradesh. This booklet, *Know Your Association*, is an updated version of its third print, compiled in December 2025. It presents a comprehensive account of the Association's genesis, growth, activities, rules and regulations, recent amendments, and life membership directory till date. We hope that this informative compilation will serve as a useful resource for all stakeholders directly or indirectly associated with poultry production and allied sectors.

I am happy for bringing out the updated version of this booklet for release of the 40th **IPSA Symposium**, being organized at DPR, Hyderabad from 9–12 December 2025.

PROFILE OF INDIAN POULTRY SCIENCE ASSOCIATION

The **Indian Poultry Science Association (IPSA)** was established in **March 1965** during the Poultry Research Workers Conference at Pune, Maharashtra, with well-defined objectives aimed at promoting poultry development and strengthening the knowledge base in poultry science. It is a registered body under the Registrar of Societies, Bareilly, Uttar Pradesh, India (Registration No. 875/1989-90).

IPSA is actively engaged in the **promotion and welfare of the poultry sector**, striving for the overall betterment of the profession by making it **socially attractive, environmentally responsible, and economically viable**.

The Association comprises a diverse range of stakeholders, including:

- Poultry science research, education, and training institutions
- Public and private organizations
- Commercial enterprises involved in poultry and allied sectors such as egg and meat processing, feed milling, compound feed manufacturing, health care and pharmaceutical products, poultry equipment production, hatcheries, and large-scale poultry production
- Individuals engaged in small-scale poultry keeping
- Scientists, professionals, researchers, and students
- At present, IPSA has a membership approx **1,900**.

BRIEF HISTORY

The idea of forming some kind of an organization to provide stimulus to the poultry developmental activities in the country was a matter of consideration in the Government and University circles for quite some time. The issue however, received serious thought during the Poultry Research Worker's Conference in March 1965 at Pune, wherein it was resolved to establish the Indian Poultry Science Association with certain well defined objectives to promote poultry development activities and knowledge base in the field of poultry science.

As effective working and growth of any organization needs a sound base and appropriate support of its constituent Members; the same was true for the IPSA also. The Association was, therefore, rightly provided with the needed support through the scientific and technical hands available at the erstwhile Poultry Research Division of Indian Veterinary Research Institute, Izatnagar (UP). Dr. S. Bose, the then Head of the Division assumed the responsibility of an Honorary Chief Editor and the first issue of the Indian Journal of Poultry Science (IJPS), an official organ of the Association, rolled out of press in September 1966.

IPSA witnessed turbulent times from 1968 to 1972 as all its activities came to stand still due to acute financial crisis. But as the nature's natural course would have it, an emergency meeting of senior members presided by Dr. C.M. Singh (the then Director, IVRI, Izatnagar) on 22 January, 1971 in IMA building, New Delhi resolved to revive the Association's activities with greater vigor despite of acute financial crisis. The generous financial help from members and a donation of Rs.250/- from Kegg Farms, New Delhi, which brought the Association back onto the rails. The then President, Dr. C.M. Singh helped a lot to come over the financial crisis. Dr. B. Panda, the then Chief Editor, IJPS and Head, Poultry Research Division, IVRI, Izatnagar continued the publication of IJPS.

Moreover, the IPSA gave birth to WPSA (IB) in one of its meetings held at Madras in 1983 where Dr. C.V. Reddy, formerly Dean, Veterinary College, Hyderabad and Dr. A.G. Khan, formerly Prof. & Head, Poultry Science Department., JNKVV, Jabalpur were respectively elected as Founder President and Secretary.

The website of IPSA was launched by Dr.V.K. Taneja, the then Deputy Director General (Animal Sciences), ICAR, on 2nd February 2005 during the inauguration of XXIII IPSA symposium at Hyderabad.

Over a period of time, the IPSA has grown both in size and activities. Many more persons with interest in poultry, joined the Association, toiled for its growth, and steered it successfully through to the rough roads.

OBJECTIVES OF IPSA

- Advancement of knowledge in Poultry Science
- Promotion of poultry development activities in the country,
- Publication of a scientific journal,
- Coordination of the activities of poultry research workers through technical meetings/discussions on important topics and presentation of research work in all branches of poultry science, and
- Encouragement of teaching, scientific research, practical experimentation, the collection and publication of statistics, the study of the economics of poultry business and study into the problems of production and marketing.

MANAGEMENT OF THE IPSA

The IPSA is administered by a group of professionals who are both elected by the General Body (GB) and/or nominated by the President. The office bearers of the Executive Committee (EC) serve the Association as honorary members. The EC is helped by the members through counseling on betterment of the Association's activities. For dealing with regional issues, Local Chapters (LC) of IPSA can also be formed. The association has provided a common platform for exchange of ideas amongst the scientist, industry - man, students and entrepreneurs engaged in poultry research, teaching, production and extension activities in the country. It has also sent a noble trend of recognizing and honouring the poultry personalities including scientist, industrialists, administrators and the journalists who contributed significantly towards the success of poultry farming in India.

INDIAN JOURNAL OF POULTRY SCIENCE (IJPS)

One of the main objectives of the IPSA is the publication of a scientific journal. "The Indian Journal of Poultry Science". Established in 1965, Indian Journal of Poultry Science (IJPS), a leading peer-reviewed Indian journal in the field is an official publication of the Indian Poultry Science Association (IPSA), Izatnagar-243 122 (UP). The publication is aimed at providing access to academicians, researchers and industry professionals from across the globe to publish their work on all aspects of poultry science through research papers, short communications and review articles. Papers published in IJPS are selectively abstracted and indexed in the Biological and Chemical Abstracts, Animal Breeding Abstracts, Poultry Abstracts, Nutrition Abstracts and Reviews and Veterinary Bulletin. The journal is published three times in a year as one volume in April, August, and December and circulated to IPSA members free of cost. IJPS is peer reviewed and has no page charges. (Bibliographic details: Number of issues per year: 3; Frequency: Three times a year in April, August, and December; Print ISSN: 0019-5529; Online ISSN: 0974-8180; 2011 NAAS Impact factor: 4.20

The Association's journal "The Indian Journal of Poultry Science" is the mouthpiece of the association in furthering its efforts to disseminating scientific and technological advances made in different branches of the Poultry Science discipline. The journal has received world acceptance and is being subscribed by several national and international institutions. From July 2024, IJPS has translated into digital and started publishing online in collaboration with ICAR-DKMA, New Delhi. *It is mandatory to register with IJPS both as reader and author to submit manuscript.* Indian Journal of Poultry Science levies a minimal processing fee of Rs. 1000/- upon acceptance of the manuscript.

The Association recognizes and encourages outstanding contributions in the field of poultry science through a range of **awards, honours, and fellowships**. These distinctions highlight excellence in research, innovation, and professional service.

The major awards instituted by IPSA include:

- Ayurved Award
- Kerala Chapter Award
- Dr. P. K. Pani Award
- Avitech and Young Scientist Award
- Dr. P. Kothandaraman Memorial Award in female and male categories
- IPSA Dr. D. Choudhury Award for Best Doctoral Dissertation
- IPSA Andhra Pradesh Chapter Award for Best M.V.Sc. Dissertation
- Life Time Achievement Award

In addition, the Association confers **IPSA Fellowship** and other honours to distinguished professionals who have contributed significantly to the growth and success of the Indian poultry sector.

Through the organization of seminars, symposia, and technical meetings, IPSA has played a vital role in bringing together scientists, industry professionals, and poultry farmers for the dissemination of the latest developments in poultry science. Over the years, the Association has successfully conducted 39 national symposia and conferences, each focusing on key themes related to poultry production and human welfare across various regions of the country.

The 40th Annual Conference and National Symposium in this series is being organized by the ICAR-Directorate of Poultry Research, Rajendranagar, Hyderabad, on the theme: "**Flock to the Future: Embracing Technology, Innovation, Entrepreneurship and Sustainability in Poultry Production for Protein Security in *Viksit Bharat***" to be held from 9th to 11th December 2025.

CONFERENCES AND SYMPOSIA TO-DATE

The Association provided a common platform for exchange of ideas amongst the scientists, teachers, industry men and students engaged in poultry research, teaching, production and extension activities in the country. By way of organizing seminars, symposia and other technical meetings, the IPSA has helped bring closer the scientists, poultry industry personnel and poultry farmers to disseminating latest information in the art and science of poultry farming. So far 39 National Symposia at different places in the country have been organized (Table 2) thereby creating an awareness amongst the masses of poultry farming and its role in helping solve problems relating to malnutrition, unemployment and eradicating poverty in the country. In order to place due impetus to various aspects of poultry production activity, specific themes at different occasions had been chosen.

11. IPSA LIFETIME ACHIEVEMENT AWARD-2025

IPSA Lifetime Achievement Award is presented annually to two distinguished Academicians/researchers/consultant/extension specialist/industry professional who has made outstanding contributions in field of poultry science and related subjects. The candidate must be a bonafide life member of Indian Poultry Science Association (IPSA). Candidate may be nominated by a bonafide life member of Indian Poultry Science Association (IPSA). The outstanding achievements and sustained significant contributions in the field of poultry sciences over a period of not less than 25 years and outstanding services rendered for Indian Poultry Science Association are the determining criteria for awarding IPSA Lifetime Achievement Award. Decision of IPSA executive committee is final.

IPSA LIFE TIME ACHIEVEMENT AWARD 2015

1. Dr. A.B. Mandal, Principal Scientist was conferred with the Life Time Achievement Award, 2015 from Poultry Federation of India (PFI) for significant contribution towards the welfare of the Poultry Industry.

IPSA LIFE TIME ACHIEVEMENT AWARD 2016

- 1) Dr. R. Prabakaran, Former Vice-chancellor, TANUVAS & President, IPSA
- 2) Dr. A.K. Srivastav, Former Director, CARI & Treasurer/Gen. Secretary, IPSA

IPSA LIFE TIME ACHIEVEMENT AWARD 2022

1. Dr. A. JALALUDEEN, Ex-Director Research & Academics, Kerala Veterinary and Animal Sciences University, Pookode, Wayanad.

IPSA LIFE TIME ACHIEVEMENT AWARD 2023

1. Dr. Leo Joseph, Ex- Director, Centre for Advanced Studies in Poultry Science, Thekkel House, House No. 15/1740, Kundukulam Street, MANNUTHY P.O., PIN 680 651, THRISSUR, KERALA, INDIA

IPSA LIFE TIME ACHIEVEMENT AWARD 2024

1. Dr ASIT BARAN MANDAL, 1, Jashmin Road, Smart Resort, Vill+PO- Kuldiha, Durgapur- 713212, Distt- Paschim Bardhaman, WB.
2. Dr. Basant Kumar Panda, N1/52 IRC Village, Bhubaneswar - 751003

IPSA HONOUR AND FELLOWSHIP

Besides serving as a common rostrum for exchange of ideas amongst the people engaged in different spheres of poultry activity, the IPSA has provided a boost to poultry research, development and extension efforts by recognising poultry personalities (Table 3) including the scientists, technbocrats, industrialists and the journalists for significantly contributing towards the success of poultry farming in India.

INDIAN POULTRY SCIENCE ASSOCIATION - CONSTITUTION

1. **Name & Address** : Indian Poultry Science Association
Central Avian Research Institute
Izatnagar - 243 122 (UP), India
2. **Jurisdiction** : The Indian Union
3. **Objectives**
 - a. To promote, advance and update knowledge of all aspects of Poultry Science.
 - b. To promote Poultry Research, Education and Developmental activities in the country.
 - c. To publish a scientific journal "Indian Journal of Poultry Science", hereinafter called IJPS.
 - d. To coordinate activities of the poultry research workers by holding technical meetings and conferences for the discussion of important topics of common interest and for presentation of research papers on all aspects of Poultry Science.
 - e. To encourage teaching, scientific research and practical experimentation; collection and publication of statistics, study of the economics of poultry business and study into the problems of poultry production, marketing and extension.

INSTRUCTIONS FOR AUTHORS

(REVISED: SEPTEMBER, 2023)

Established in 1965, Indian Journal of Poultry Science (IJPS), a leading peer-reviewed Indian journal in the field is published by the Indian Poultry Science Association, Izatnagar-243 122 (UP). The publication is aimed at providing access to academicians, researchers and industry professionals from across the globe to publish their work on all aspects of poultry science through research papers, short communications and review articles in three issues in a year (April, August, and December). The IJPS is selectively indexed and/or abstracted by major agencies of the world.

The editorial board of IJPS welcomes the submission of manuscripts within the aim and scope of the journal for publication. The articles can be submitted via regular mail in duplicate, each with a set of original figures and photographs to the chief editor, Indian Journal of Poultry Science, ICAR-Central Avian Research Institute, Izatnagar-243 122 (UP), INDIA.

However, it is encouraged that the manuscript may be submitted electronically in MS WORD format as e-mail attachments to the chief editor at ijpseditor@gmail.com along with article submission certificate for further processing at the Editorial Office.

Please refer to the “Instructions for authors (**Revised: September, 2023**)” section before submitting an article. Author(s) should also consult the most recent edition of IJPS (April 2024 issue onwards) for general presentation of the text of the manuscript.

GENERAL GUIDELINES

1. It is the responsibility of the authors to ensure that papers are submitted strictly as per the style and format of IJPS. The articles not conforming fully to the style and format of IJPS will be returned to author(s) by the editorial office for amendment, prior to a review for its scientific merit.
2. Submission of an article is understood to imply that the article is original and has not been published previously, is not under consideration for publication elsewhere, and if accepted, it will not be published elsewhere in the same form, in English or any other language. The submission of the article has the approval of the all co-authors and the authorities of the host institute where work has been carried out.
3. The editorial board of IJPS discourages the submission of more than one article dealing with related aspects from the same study; this includes different aspects of data derived from one particular experiment, or cases in which the analytical techniques, animals or experimental procedures are common to all papers. If author(s) have valid reasons for separation of reports of one particular experiment into more than one paper, these must be submitted simultaneously.
4. The Author(s) may suggest the names of at least three experts/reviewers, not from the host organization/institute where the work had been carried out (along with their complete mailing address, contact nos. and e-mail id) whom they judge qualified to evaluate their research article. These suggestions will only be considered if e-mail id's are also provided. Submission of such names does not imply that they will definitely be used for scrutiny.
5. The “Article submission certificate” duly signed by all the authors/head of host department/institute (optional) on a prescribed format must be furnished along with article at the time of submission. If the article is sent through e-mail, the scanned copy of certificate (signed/stamped) may be attached.

6. For publication of article in IJPS, the first and the corresponding author must be a life member of Indian Poultry Science Association. Besides, Rs 1000 will be charged as processing fee for publication of each article in the Journal.
7. The submitted manuscripts will be assessed by editorial board first, and if found suitable for publication, it will be sent for peer-review. The review process will be a double-blind process where author(s) and referees are unaware of each others' names. The author(s) must abide by the suggestions of referee and the editorial board of IJPS. The final decision to publish an article will lie with the chief editor of IJPS.
8. The corresponding author will be informed about the acknowledgement of the article (with manuscript identification number), reviewer decisions and final acceptance of the article. He will also receive the PDF file of his/her published article free of cost via e-mail. No hard copies of the reprints will be provided.
9. The Instructions for authors (**Revised: September, 2023**) will take effect from April 2024 issue of IJPS onwards.
10. To increase the citation of articles published in IJPS, it is now mandatory to **cite two to three articles** related to the submitted manuscript published in the IJPS.
11. For enquiries regarding submissions, please contact the editorial office at ijpseditor@gmail.com

MANUSCRIPT PREPARATION

Language: Papers must be written in English. The text and all supporting materials must use US spelling conventions. It is up to the authors to make sure there are no typographical errors in the manuscript.

Typescript: Manuscripts must be type in Microsoft Word, using Times New Roman font at 12 points, double spaced on one side of A4 size bond paper with 2.5 cm margin on all sides. All pages should be numbered consecutively in the right corner of the bottom. The line numbers have to be inserted in a continuous manner for the whole manuscript. Indent new paragraphs.

Wordage: Papers should not normally exceed up to 8000 words for review articles; 5000 words for original full length papers and 2000 words for short communications.

Headings: Main Headings: Major headings are centered, all capitals, boldface in Times New Roman font at 12 points, and consist of ABSTRACT, INTRODUCTION, MATERIALS AND METHODS, RESULTS AND DISCUSSION, ACKNOWLEDGMENTS (optional) and REFERENCES. **First Subheadings** are placed in a separate line, begin at the left margin, and are in italics. Text that follows should be in a new paragraph. **Second Subheadings** should begin with the first line of a paragraph, indented and in italic. The text follows immediately after the second subheading.

Contents: The contents must be arranged in an orderly way with suitable headings for each subsection. The recommended subdivision of contents is as follows-

Title page: There will be a first page in the manuscript containing Running head, Title of the article, Author details, Address of the host institute and collaborative institutes and Address of the corresponding author with email

Running head: The running head or short title of not more than 50 characters, in title case and centered should be placed above the main title of the study.

Title: The title must be informative and brief not more than 150 characters. It should be in sentence case.

Authors: The initials and name of the author(s) should be in CAPITAL.

Address: The address of the host institution where the work was done must follow the title. Superscripts (1,2,3) should be used in cases where authors are from different institutions. The superscript # should be appended to the author to whom correspondence should be addressed, and indicated as such together with an e-mail address in the line immediately following the keywords. The present postal address of authors, if currently different from that of the host institution should also be superscripted appropriately and inserted in the lines following the key words.

Body of the Manuscript: The second page onward of the manuscript may contain the following headings-

Title: Same as that in the title page.

Abstract: It must summarize the major objectives, methods, results, conclusions, and practical applications of the research. The Abstract must consist of complete sentences and use of abbreviations should be limited. The abstract should not contain more than 250 words.

Keywords: The Abstract is followed by three to five keywords from the title to be used for subject indexing. These should be singular (e.g., hen, not hens). The abstract, including key words should be separated by horizontal lines placed before and after the text.

Introduction: This should include a statement of why the subject under investigation is considered to be of importance, a concise indication of the *status quo* of published research in this field and a declaration of the aims of the experiment, i.e. the hypothesis. This should be supported by recent references not

Materials and Methods: These should be concise but of sufficient detail to enable the experiment to be replicated by an outside party. Particular care should be taken to ensure that the appropriate **statistical analyses** have been carried out. Specify the design used, factors tested or the statistical model employed. Non significant differences ($P \geq 0.05$) should not be discussed.

Results and Discussion: Results and discussion should be combined to avoid repetition. It should be presented in a logical sequence in the text, tables and figures. The repetitive presentation of the same data in different forms should be avoided. The discussion should consider the results in relation to any hypotheses advanced in the Introduction and place the study in the context of other work. **The conclusion** should consist of a short integration of results that refer directly to the stated aims of the experiment and a statement on the practical implications of the results.

Acknowledgements (optional): A brief and formal acknowledgment section, if desired, should follow the conclusion statement. Do not include titles of persons; such as Dr., Mr., or Ms., use only initials and surnames.

References: The existing relevant literature restricted to those with a direct bearing upon the findings must be appropriately cited.

References appearing in the text-References in the text should be given as: Panda and Rao (1983) or (Panda and Rao, 1963). Use and not & . A reference by three or more authors should be identified in the text only by the first author followed by *et al.* (in italic) and the year (Tyagi *et al.*, 2016) or Tyagi *et al.* (2016) reported that like . Where several references are quoted consecutively in the text, the order should be chronological, or, within a year, alphabetical (by first author or, if necessary, by first and second author(s)). Where references are made to several papers by the same author(s) in the same year, the year should be followed by a,b,c, etc. Personal communications and unpublished work should be cited in the text only and not in the reference list, giving the initials, name; for example (A.K. Panda, unpublished), (A.K Panda, personal communication). References to

internet sites should be quoted in the normal way in the text e.g. FDA (2008). In the reference list, the full URL must be given, followed by the date that the website was accessed.

References appearing in reference section-All publications cited in the text should be presented in the list under Reference section, in alphabetical order. The title of the article should be given in the reference and journal's name should be cited in full and in italic. It is the full responsibility of the authors to cross-check references in the text of the article with those in the list of references. In all cases, a reference must provide sufficient information to enable the reader to locate it.

Tables/Figures/Illustrations: Tables should be self-contained and complement, but not duplicate information contained in the text. The table number (given as an arabic numeral) should be given at the top, followed by a concise title. Give essential details as footnotes. Keep the number of columns to a minimum. Column headings should be brief, with the units of measurement clearly stated in parentheses. Where one unit applies to all the data in the body of the table include it in the title. Cite all tables in the text, in numerical order at first mention. Significant differences between means in columns or rows should be indicated by superscript letters, and accompanied by a standard statement underneath the table, e.g. Means in columns not sharing a common superscript differ significantly ($P < 0.05$). Number all figures/illustrations consecutively, in order of appearance in the text, using arabic numerals. Keep lettering on illustrations to a minimum and include essential details in the legend. Tables/Figures/Illustrations etc. should be submitted, in duplicate, along with the main text of the paper with each on a new page, and should take account of the page size of the journal. Wherever possible, figures should be suitable for subsequent direct photographic reproduction. Figure captions and table headings should be provided on a separate page at the end of the script.

Coloured figures: Use of coloured photographs is for soft copy only, however, for print it is discouraged. If found necessary, the photographs should be submitted as good quality, glossy colour prints. Authors have to bear the cost of colour printing.

Abbreviation and units: Use only standard abbreviations. The word 'Figure' should be shortened to Fig. unless starting a sentence. SI units (metre, kilogram etc.) should be used wherever possible. Statistics and measurements should always be given in figures; i.e., 15 mm, except where the number begins the sentence. When the number does not refer to a unit measurement (e.g. 15 mm), it is spelt out, except where the number is greater than nine.

Style and format of short communications: A short communication should be a maximum of 2000 words. It contains a very brief abstract followed by a brief introduction, text including tables and figures and a brief conclusion followed by references. No subheadings are to be included except for the abstract and reference section. Format, tables and figures must conform to the conventions of the Journal.

Mandatory check list for submission of articles

Kindly ensure the following before submitting the article for publication in IJPS:

1. The manuscript has been submitted strictly as per the style and format of IJPS detailed in Instructions for authors (Revised September, 2023).
2. The list of at least three experts/reviewers, not from the host organization/institute (along with their complete mailing address, contact nos. and e-mail id) has been provided.
3. The Article submission certificate duly signed by all the author(s)/head of host department/institute (optional) on a given prescribed format has been enclosed.
4. The first authors and the corresponding author must be a life member of Indian Poultry Science Association.

Any submitted papers not conforming to the above will be returned.

Disclaimer

The editorial board of IJPS takes all necessary precautions to ensure the accuracy of the articles published in the journal and in any case, all opinions, conclusions and statements expressed in the articles are those of the authors and contributors. The editorial board of IJPS, Indian Poultry Science Association and the publisher own no liability or responsibility for them.
